

General Profile

The fund invests up to 85% in a diversified portfolio of stocks listed on the NSE and 15% in Treasury Bills, Commercial Paper and Bonds. The objective of the Amana Growth Fund is to generate high long-term returns and maximize capital growth.

This fund offers investors high returns consistent with stock market risk and is an excellent hedge against inflation. The fund is suitable for medium to long-term investors, young adults entering the job market, pension funds and individual pension plans, people with high tolerance for risk and young parents saving for children's higher education.
